

PETER SCHAADT

CV

Peter Schaadt is Programme coordinator for the German National Earth Observation Programme at the DLR German Space Agency who started working in the field of remote sensing with the management of Radar Altimetry from ERS-1 and SAR exploitation programmes with data from ERS-1 and X-SAR in the early 1990's. Since the early 2000's he moved to the programmatic division and is coordinating the strategic development of the Earth Observation Programme. There he was involved in the foundation of the Tandem-X, the EnMAP, the MERLIN, the GRACE-FO and the GRACE-I missions. As a member of the German Delegations to the ESA Earth Observation Boards DOSTAG and PB-EO he is overlooking the progress of the ESA Earth Observation programmes in development.
